Learning management System (LMS) :-

- Moodle is a Learning Management System (LMS)
- It is free / libre and open source software
- It helps teachers and educators to create online courses for adaptive and customized learning
- It is used by many small and large educational institutions to create and deliver courses online to their students

About the Spoken-Tutorial :-

- Self explanatory - uses simple language
- Audio - Video-user multisensory approach
- Small duration - has better retention
- Learner Centered - learn at your own pace
- Learning by doing - learn and practice
- Simultaneous empowerment - learn a new FOSS
