11th September, 2018

Dear Principal Sir/Ma'am,

This mail is regarding the IIT Bombay-Spoken Tutorial Software training courses that many of you have been offering in your colleges to your students. Since 2011 these courses have been valued by Engineering colleges all over India for -

1. Helping as e-tutor for syllabus specific courses like C, C++, Java, Linux, PHPMySQL and so many more.
2. Giving students opportunity to learn job oriented Skill courses like Multimedia - Blender, GIMP and Inkscape for animation and computer graphics.
3. Giving students opportunity to learn job oriented Skill courses like Python, Drupal - for Web development, Scilab - like Matlab, Netbeans, Arduino - for robotics etc. etc. No where will students be able to learn these courses so easily and for a negligible cost in their own labs in their own free time. That is by self-learning.
4. Giving Office suite courses in Open Source - Libre Office Writer (like Word), Calc (like Excel) and Impress (like Powerpoint). These are recommended by AICTE and UGC for all colleges to enhance documentation skills.
5. MOOCs requirement recently announced by MHRD (AICTE & UGC) - also possible to fulfill as Spoken Tutorial is a recognised course in that list.

E- Brochure link: <https://process.spoken-tutorial.org/images/a/a8/E-brochure.pdf>

All these courses come with Certificates based on an online test taken in the college itself. Clearly such a program is very useful in this day and age for our graduating students. Many colleges are already working and planning for all 8 semesters. The University recommends completely.

Please join by calling the state Training Coordinator **Swapnali P Kadam**. Mob: 8082014548, 9920161034, E-Mail ID: swapnalistp@gmail.com
